An Established, Operating Commercial Success.
THE BEST INVESTMENT IN THE WORLD Now Earning Money Every Day and Hour.

been unprecedented. It would take a book to tell you all about this greatest of all inventions. We prin

the use of their 30,000 offices, covering the United States and Canada, so that a mes sage can be sent from and received in every town and hamlet.

Its officers and directors include men of the highest business standing and capa-

city, including John W. Griggs, President of the Company and former Governor of New Jersey and ex-Attorney-General of the United States, with a strong Board of Directors, and Thomas A. Edison, with other leading scientists, as Consulting Engineers.

The English Marconi Company, which was brought out previous to the American Marconi Wireless Telegraph Company, according to their annual statement, earned

SEVEN PER CENT. NET LAST YEAR.

A remarkable showing for a young company. The American Marconi Company, which is younger, ha the advantage of all the English Company's expenditures and is growing rapidly, and with its much large territory its earnings should be much greater.

IT IS NOW TO THE OCEAN WHAT THE BELL TELEPHONE IS ON LAND and with many times a wider field of operation affords greater opportunity for advance in securities.

One hundred dollars originally invested in Bell Telephone stock now represents \$200,000 value. The Company is capitalized exceedingly low, has no Bonds or Preferred Stock, and its securities are based on the assets, contracts and patents of the System in the United States and possessions and dependencies.

First in the field, based on the highest scientific principles and the widest experiments, and will always be

FIRST, like the Bell Telephone.

Electric inventions have proved the most profitable of all investments, and the Marconi Wireless will

ECLIPSE them all, as it does in utility and wideness The New Marconi Station at Sea Gate, N. Y. Its stockholders embrace the most conservative investors in America, including bankers, merchants,

mechanics and professional men of all classes.

The Marconi System is now in daily operation between both sides of the Atlantic and trans-Atlantic steamships and most war vessels at sea. These securities offer the greatest investment opportunity the world, and will LAY THE

FOUNDATION OF YOUR FORTUNE.

Your chance for profit is in finding out that the investment is a good one before everybody else known it. If Bell Telephone stock were offered now at the price it was sold to original investors it wouldn't last a minute. \$100 invested in Bell Telephone stock in 25 years increased to over \$200,000. The only difference between the Bell Telephone opportunity you missed and the MARCONI opportunity you need NOT MISS is in the name. The time to buy is while Marconi stocks are cheap.

Bell opportunity is one opportunity worth regretting. Marconi Wireless Telegraph is just as

The New York "Sun," Jan. 28, 1906, says:
"One thousand messages, commercial and personal, have been sent from one ship to others and to shore stations on one trip in the busy season. This means an expenditure by the passengers for Marconi Wireless messages of more than \$2,000. On a recent trip to New York from Hamburg the Amerika sent 100 despatches to ship and shore."

Now is the time to buy Marconi Securities. To-morrow may be too late. A big demand and an advance in price are at hand. Invest Before the Next Great Rise in These Securities and Reap the For full Information concerning the wonderful Marconi System and for a free illustrated pamphlet and copy of the latest edition of the Marconi Wireless News address without delay, as below:
